PROFESSIONAL SUMMARY

Senior Analyst with 4+ years of experience in data visualization and business intelligence. I design, build, and deploy interactive dashboards and reports in Power BI and Tableau, turning complex data into insights that drive business decisions and meet stakeholder requirements.

CORE COMPETENCIES

Power BI & Tableau Dashboards | Data Visualization | SQL & PostgreSQL | ETL (Matillion, Tableau Prep) | AWS S3 & Azure Databricks | Data Quality Assurance | Data Governance (Collibra) | Advanced Excel | Python & Java

WORK EXPERIENCE

Senior Engineer - Nagarro Jan 2025 - Present

- Developed Power BI dashboards to track business KPIs and support decision-making.
- Built ETL pipelines in Matillion to move data from AWS S3 into Azure Databricks and PostgreSQL.
- Wrote SQL queries for data analysis, ran data quality checks, and maintained data governance and lineage in Collibra so reporting stays accurate.
- Worked with stakeholders in Agile sprints using Jira and Confluence.

Senior Associate Consultant - Infosys Oct 2024 - Jan 2025

- Developed Tableau dashboards and reports based on client requirements.
- Improved dashboard performance by optimizing data sources, extracts, and calculations.
- Wrote SQL queries to prepare and validate reporting data.
- Worked with client and cross-functional teams to deliver on time.

Senior Analyst - SRS Infoway Aug 2024 - Oct 2024

- Built Tableau dashboards to monitor business and operational metrics.
- Cleaned and transformed data using SQL and Advanced Excel.
- Performed ad-hoc analysis to identify trends and support management decisions.
- Validated data across sources to ensure report accuracy.

Application Development Associate - Accenture Oct 2019 - Feb 2021

- Created Tableau dashboards to analyze sales, customer behavior, and marketing performance.
- Worked with data engineers to extract, prepare, and transform data using Tableau Prep.
- Followed Tableau best practices for naming, folder structure, and security.
- Participated in Agile ceremonies, including sprint planning and daily stand-ups.

PROJECTS

Brand Performance & Promotion Analytics - US Healthcare

Analyzed brand performance across sales, units sold, and market share, along with brand promotion through campaigns using calls, emails, programs, and other customer engagements, as well as patient support and engagement.

- Developed Tableau and Power BI dashboards to track business KPIs and support decision-making.
- Built ETL pipelines in Matillion to move data from AWS S3 into Databricks and PostgreSQL, and prepared data with Tableau Prep.
- Wrote SQL queries for data analysis and ran quality checks to ensure accurate reporting.
- Worked with stakeholders in Agile sprints using Jira and Confluence.

SQL, Tableau, Power BI, Tableau Prep, Matillion, AWS S3, Azure Databricks, PostgreSQL, Collibra, Jira, Confluence, Excel

Brand Performance & Demand Analytics - US Healthcare

Analyzed brand performance across sales, units sold, demand, inventory, and market share, along with brand promotion through campaigns using calls, programs, and other customer engagements, as well as patient support and engagement.

- Designed Tableau dashboards to provide stakeholders with actionable insights into various brands.
- Optimized dashboards for better performance with high data volumes and complex visualizations.
- Led development with team members, resolving the issues that came with it.
- Collaborated with team members to ensure alignment with business requirements.

SQL, Tableau, Jira, Confluence, Excel

Process Efficiency Analytics - UK Banking Group

Identified individual contributions within the project environment, helping stakeholders recognize process bottlenecks and analyze time spent on specific activities to drive process improvements and efficiency.

- Analyzed and interpreted process data to identify bottlenecks and inefficiencies.
- Designed Tableau dashboards to provide stakeholders with actionable insights into team performance.
- Optimized SQL queries for efficient data extraction and faster analysis.
- Collaborated with stakeholders to ensure alignment with business requirements.

SQL, Tableau, Jira, Confluence, Excel

E-commerce Sales & KPI Analytics - US Healthcare Group

Provided stakeholders with real-time insights into sales metrics, monitored key performance indicators (KPIs), and identified areas for improvement in the e-commerce platform, helping optimize platform performance and enhance customer experience.

- Built interactive Tableau dashboards to visualize sales metrics and customer trends.
- Monitored KPIs such as revenue growth, customer acquisition, and cart abandonment rates.
- Conducted root cause analysis to identify areas for improvement in the platform's operations.
- Enhanced dashboard performance through SQL query optimization and efficient data modelling.
- Partnered with business teams to align dashboards with organizational goals.

SQL, Tableau, Jira, Confluence

EDUCATION

Diploma in Philosophy (Indian and Western Philosophy) - Tattvagyan Vidyapeeth 2021 - 2023
Full Time

B.E. Computer Science and Engineering - Smt. Kashibai Navale College of Engineering 2015 - 2019
CGPA: 8.7 · Full Time

Class XII - Maharashtra State Board 2015
Percentage: 72%

Class X - Maharashtra State Board 2013
Percentage: 88%

SKILLS

BI & Visualization: Power BI, Tableau, Tableau Prep, Advanced Excel, Data Visualization
Databases & Querying: SQL, PostgreSQL
Data Engineering & Cloud: ETL, Matillion, AWS S3, Azure Databricks
Data Quality & Governance: Data Quality Assurance, Collibra
Programming: Python, Java
Tools & Methodology: Jira, Confluence, Agile / Scrum
